

Newark, Delaware is Bob's home town and where he attended the University of Delaware. He graduated in 1974 with a B.S. degree in Entomology and Applied Ecology. Bob also played four years of Delaware Blue Hen varsity lacrosse as a midfielder. During Bob's college summers he worked on the golf maintenance staff at DuPont Country Club.

Upon graduating from Delaware, Bob worked several years for an environmental consulting firm on Long Island, New York. Bob moved to Northern Virginia and worked for a large lawn care company for ten years. This is where Bob learned much about turfgrass management, sales, customer service and personnel management. Bob has been in turf and horticultural sales for over 24 years in the Northern Virginia area. His customers include lawn care and landscape companies, golf courses, sports turf, arborist and municipalities. It is very rewarding for Bob to help solve his customer's landscape problems and provide quality products to improve and maintain the health and esthetics of their landscapes. Bob is a certified nutrient management planner and certified pesticide applicator.

Bob is happily married to his lovely wife Linda for over 25 years. They are proud of their children, Brian and Lindsey and Riley their pound puppy dog. Bob enjoys watching sports, power walking, puttering in the yard, barbecuing with a beer in his hand, vacationing in the Outer Banks and relaxing with family and friends
